

HEATLOK SOY[®]

GREEN SOLUTION — ONE APPLICATION

Our unique formula incorporates 14% of recycled plastic and renewable oils to create our high-performing, closed-cell polyurethane spray foam insulation. A single application saves time and money in construction costs.

CLOSED-CELL

In compliance with the International Building Code[®] (IBC), the International Residential Code[®] (IRC), and the International Energy Conservation Code[®] (IECC).

R-value = 7.4 @ 1 inch

Density = 2 lb/ft³

Contains 14% Renewable
and Recycled Content

FIVE BENEFITS WITH ONE APPLICATION

Heatlok Soy® — our high-performing, versatile spray foam insulation for commercial and residential construction creates a specialized engineered building envelope, which provides better thermal resistance, an excellent air barrier, and a recognized vapor retarder. Demilec continues to strive toward innovative, scientific advancements in high-efficiency spray foam insulation solutions, elastomeric coatings, high-performance quality products, and superior service.
